Countrywide Mortgage Centres Joins AMPD

AMPD are delighted to announce the addition of Countrywide Mortgage Centres, part of the Countrywide Group, to their membership.

The appointment of Countrywide Mortgage Centres is the second in a number of new appointments that AMPD intend to make over the coming months.

Liza Campion, Product Development Manager at AMPD, said "We are delighted that Countrywide Mortgage Centres are now under the AMPD umbrella and that they bring with them the backing of the Countrywide group. Many packagers are feeling vulnerable as the credit crunch continues and therefore being part of an association that can add value to their proposition is more vital than ever. Our new appointments send a clear message that AMPD intends to weather the storm by strengthening its position with the addition of like-minded packagers who share its vision for the future."
